Profiles	LinkedIn: linkedin.com/in/hammad-ali-62417224b GitHub: github.com/4858hammad Portfolio: 4858hammad.github.io/hammad-ali.github.io				
Skills	ERP / Odoo: Odoo 16/17/18/19, Community & Enterprise, ORM, QWeb, XML Views, OWL, Module Development, Version Migration, Record Rules & Access Groups Backend: Python, Flask, Django, REST API, PostgreSQL, SQL, JavaScript Integrations: Mastercard, Sage API, RingFree, Meta API, Firebase, Biometric Devices Functional: Sales, CRM, Purchase, Inventory, Accounting, Manufacturing (MRP/BOM), HR & Payroll DevOps: Docker, Git, Linux, Nginx Mobile: Android, Java, Kotlin, React Native, Firebase				
Tools	GitHub Docker	Postman Nginx	PyCharm Linux	VS Code Google Colab	Android Studio
Experience	TTI Testing Laboratories May 2026 - Present <i>Python / Odoo Developer · Full-time, Hybrid</i> - Developed an employee self-service portal on Odoo 18 Enterprise with custom OWL components: payslips, attendance records, missing-attendance corrections, and leave requests routed to managers for approval - Designed an attendance dashboard with custom OWL components consolidating check-in/out records into a single management view across remote and on-site staff, surfacing leave and flagging late arrivals - Engineered a Field Sales Person module with a custom OWL interface covering rep-to-customer and territory assignment, targets versus achievement, and field payment recovery - Automated the full employee loan lifecycle — request, approval, disbursement and payroll-linked installment recovery - Extended Odoo Accounting and Sales with POS and payment-gateway customisations Aetos Technologies Jan 2025 - Apr 2026 <i>Team Lead · Jan 2026 - Apr 2026 · Full-time, Hybrid</i> - Led Odoo development team of 3 engineers delivering ERP solutions across Accounting, CRM, Sales, and Inventory - Eliminated manual accounting data entry entirely with a Sage-to-Odoo sync engine (100% automation) - Connected the ClearPath Doctor Portal to the Odoo ERP for patient orders, prescriptions and clinical workflows - Owned delivery end to end: requirements gathering, client support, code review and production releases <i>Odoo Developer · Jan 2025 - Dec 2025 · Full-time, Lahore</i> - Shipped a custom Mastercard payment provider handling 500+ transactions per month - Designed a Sale Order lifecycle flow from quotation to payment, cutting order follow-up time ~40% - Connected RingFree and Firebase REST APIs to drive automated invoicing and reconciliation - Led Odoo 16 to 17 migration with zero data loss Axiom World Aug 2023 - Jan 2025 <i>Python Developer · Full-time, On-site</i> - Delivered 5+ custom Odoo modules across Sales, Inventory and Accounting - Cut page load time 25% through ORM refactoring and query optimisation - Replaced manual CSV workflows with direct third-party API connections - Produced QWeb reports and management dashboards for operational reporting Hazel Mobile Aug 2022 - Nov 2022 <i>Mobile Application Developer · Internship</i> - Shipped Android features in Java and Kotlin across multiple releases, applying MVC and MVVM patterns, and contributed to feature design, testing and QA				
Projects	Employee Self-Service Portal — TTI Testing Laboratories <i>Modules: Employees, HR, Portal, Time Off, Payroll, Attendance · Python, Odoo 18 Enterprise, OWL, QWeb</i> Self-service access to payslips, attendance and HR data, with missing-attendance corrections and leave requests approved by managers. Scoped with record rules and access groups so staff see only their own data and managers only their team. Attendance Dashboard — TTI Testing Laboratories <i>Modules: Attendance, Employees, HR, Time Off, Reporting · Python, Odoo 18 Enterprise, OWL, PostgreSQL</i> Management dashboard aggregating check-in/out records across remote and on-site staff, surfacing who is on leave and flagging late arrivals, with reporting over large historical datasets. Field Sales Person Module — TTI Testing Laboratories <i>Modules: Sale, CRM, Contacts, Employees, Accounting · Python, Odoo 18 Enterprise, OWL, PostgreSQL</i> Manages field sales reps across customers and territories, with target vs achievement tracking and payment recovery for collections made on customer visits, feeding field activity back into the Sales pipeline. Employee Loan Management — TTI Testing Laboratories				

Modules: Employees, Payroll, Loans, Accounting · Python, Odoo 18 Enterprise, PostgreSQL

Full loan lifecycle: request, approval, disbursement and installment recovery, with deductions flowing to payroll.

Sage Integration — Aetos Technologies

Modules: Accounting, Contacts, Invoicing, API Integration · Python, Flask, Odoo 17, Docker

Flask connector syncing Sage invoices, customers and companies into Odoo via scheduled REST pipelines, with partial payments and reconciliation.

Mastercard Payment Provider — Aetos Technologies

Modules: Accounting, Invoicing, Payment · Python, Odoo 17/18, REST API

Custom payment acquirer across Community & Enterprise; 500+ monthly automated transactions.

Tazah Technologies — Sale Order Flow — Aetos Technologies

Modules: Sale, Purchase, Inventory, Accounting · Python, Odoo 17

Sale Order lifecycle automation, quotation to delivery and payment; ~40% less order follow-up time.

RingFree Integration & Customization — Axiom World

Modules: Accounting, Sales, Metered Billing, Bank Payment Sync · Python, REST API, Odoo 16

Usage-based metered billing between Odoo and RingFree, with automated invoicing and bank payment reconciliation.

Fell ERP Development — Axiom World

Modules: Sale, Purchase, Inventory, CRM, Exceptional Reports · Python, Odoo 16

Operational reporting engine across Sales, Purchase, Inventory and CRM, with daily exception reports and automated notifications.

Silicon Signs ERP Customization — Axiom World

Modules: Manufacturing, Sales, BOM Management, Production · Python, Odoo 18 Enterprise

BOM versioning and comparison in Odoo 18 Manufacturing, with client-specific BOM selection wired into Manufacturing Orders.

Prime Global Imports ERP Customization — Axiom World

Modules: Sales, Invoicing, UI Customization, Navigation · Python, Odoo 18 Enterprise, QWeb

Custom sidebar layout, enterprise-style home menu, and QWeb report customisation for sales and invoicing.

ClearPath Orthodontics ERP

Modules: Manufacturing, Logistics, Sales, Inventory, HR · Odoo 18 Enterprise, Python, Biometric

Doctor Portal for patient orders and prescriptions, MRP/BOM workflows, logistics tracking, multi-branch biometric attendance.

Axis Marketing Management

Modules: CRM, Customer Portal, Contract Management, HR · Odoo 19 Enterprise, Meta API

Meta-connected campaign and lead sync, plus contract & licence lifecycle with automated renewal tracking.

HRMS Bundle Migration (16 → 17) — Axiom World

Modules: Employees, Payroll, Loans, HR Tax · Python, PostgreSQL, Odoo 17

Odoo 16 → 17 HR migration preserving complex payroll structures and loan installment logic with zero data loss.

University & personal projects — 2022

Kotlin, React Native, Django, Firebase, .NET MVC

Mobile apps (Showroom Ecommerce, PavoBibox, Idea Pitching) with Firebase sync and auth, plus a .NET MVC web CV builder.
