Summary Python & Odoo ERP Consultant with 3+ years of experience delivering custom modules, API integrations, and automated workflows. Skilled in building scalable, production-ready ERP solutions across Odoo 16/17/18/19 Community and Enterprise environments, with strong backend engineering and third-party system integration expertise.

Experience

Tti Testing Laboratories May 2026 - Present
Python / Odoo Developer · Full-time, Hybrid

- Leading Odoo development and ERP customization, focusing on scalable ERP solutions, workflow automation, and system integrations
- Working on advanced Odoo customization, API integrations, POS & payment gateway solutions
- Optimizing PostgreSQL performance and Docker deployments

Aetos Technologies Jan 2026 - Apr 2026
Team Lead · Full-time, Hybrid

- Led Odoo development team of 3 engineers delivering ERP solutions across Accounting, CRM, Sales, and Inventory
- Built Sage-to-Odoo integration that eliminated manual data entry (100% automation)
- Integrated the Doctor portal with the ClearPath Odoo ERP system
- Coordinated delivery across client requirements, support, and production releases

Aetos Technologies Jan 2025 - Dec 2025
Odoo Developer · Full-time, Lahore

- Developed Mastercard payment module and automated 500+ transactions per month
- Created Sale Order automation that reduced follow-up time by 40%
- Integrated REST APIs (Ringfree, Firebase) for billing and automation
- Led Odoo 16 to 17 migration with zero data loss

Axiom World Aug 2023 - Jan 2025
Python Developer · Full-time, On-site

- Developed 5+ custom Odoo modules (Sales, Inventory, Accounting)
- Improved system performance and reduced load time by 25%
- Integrated third-party APIs and removed manual CSV workflows
- Customized reports (QWeb) and dashboards for business insights

Hazel Mobile Aug 2022 - Nov 2022
Mobile Application Developer · Internship

- Built Android application features using Java and Kotlin
- Applied MVC and MVVM patterns in app development
- Collaborated on feature design, testing, and QA across releases

Education **Lahore Garrison University** Jul 2019 - Jul 2023
Bachelor's in Computer Science

Tools	GitHub	Postman	PyCharm	VS Code	Android Studio
	Docker	Nginx	Linux	Odoo.sh	Google Colab

Skills

ERP / Odoo: Odoo 16/17/18/19, ORM, QWeb, XML Views, OWL, Odoo.sh, JSON-RPC

Backend: Python, Flask, Django, REST API, PostgreSQL

Integrations: Mastercard, Sage API, Ringfree, Firebase, OAuth 2.0

DevOps: Docker, Git, Linux, Nginx

Projects

Sage Integration — Axiom World

Modules: Accounting, Contacts, Invoicing, API Integration · Python, Flask, Odoo 17, Docker

Flask-based connector syncing Sage invoices, customers, and companies into Odoo with scheduled REST pipelines, automated partial payments, and reconciliation.

Mastercard Payment Provider — Aetos Technology

Modules: Accounting, Invoicing, Payment · Python, Odoo 17/18, REST API

Custom Odoo payment acquirer across Community & Enterprise enabling automated invoice settlement; 500+ monthly automated transactions.

Tazah Technologies — Sale Order Flow — Aetos Technology

Modules: Sale, Purchase, Inventory, Accounting · Python, Odoo 17

Custom Sale Order Flow module automating the lifecycle from quotation to delivery and payment; ~40% reduction in order follow-up time.

RingFree Integration & Customization — Axiom World

Modules: Accounting, Sales, Metered Billing, Bank Payment Sync · Python, REST API, Odoo 16

Usage-based metered billing integration between Odoo and RingFree with automated invoicing, bank payment reconciliation, and custom financial reports.

Fell ERP Development — Axiom World

Modules: Sale, Purchase, Inventory, CRM, Exceptional Reports · Python, Odoo 16

Centralized operational reporting engine consolidating sales, purchase, inventory, and CRM with daily exception reports and automated email notifications.

Silicon Signs ERP Customization — Axiom World

Modules: Manufacturing, Sales, BOM Management, Production · Python, Odoo 18 Enterprise

Custom BOM versioning and comparison system in Odoo 18 Manufacturing with client-specific BOM selection integrated into Manufacturing Orders.

Prime Global Imports ERP Customization — Axiom World

Modules: Sales, Invoicing, UI Customization, Navigation · Python, Odoo 18 Enterprise, QWeb

Enterprise UI/UX enhancements including a custom sidebar layout, enterprise-style home menu, and advanced QWeb report customization for sales and invoicing.

ClearPath Orthodontics ERP

Modules: Manufacturing, Logistics, Sales, Inventory, HR · Odoo 18 Enterprise, Python, Biometric

Doctor Portal for patient orders and prescriptions, manufacturing/BOM workflows, logistics tracking, and multi-branch biometric attendance.

Axis Marketing Management

Modules: CRM, Customer Portal, Contract Management, HR · Odoo 19 Enterprise, Meta API

Marketing management system connected with Meta for campaign updates and lead sync, plus contract & license lifecycle with automated renewal tracking.

HRMS Bundle Migration (16 → 17) — Axiom World

Modules: Employees, Payroll, Loans, HR Tax · Python, PostgreSQL, Odoo 17

Migrated HR modules from Odoo 16 to 17 preserving complex payroll structures and loan installment logic with zero data loss.

Showroom Ecommerce — ERP & App — Aetos Technology

Modules: Sales, HR, Contracts, Payroll · React Native, Odoo, Pavo ERP, REST API

Cross-platform React Native app placing orders directly into Odoo, with Odoo as the integration hub and failover layer syncing to Pavo ERP.

PavoBibox Web / App — Aetos Technology

Python, Django, Firebase, Docker, Kotlin

Dockerized Django web app syncing orders, products, and customers with Firebase, integrated with a Kotlin Android app for real-time updates.

Idea Pitching App

Kotlin, Android, Firebase

Investor and pitcher collaboration app with a real-time Firebase chat system, authentication, and live feedback.

Simple CV Maker

HTML, Bootstrap, SQL, .NET MVC

Web CV builder letting users create and manage CVs stored in a SQL database, with registration and authentication.

Certifications Business Development

Jan 2023 - Jul 2023

Lahore Garrison University
