## Summary

Python and Odoo ERP consultant focused on custom module development, ERP customization, API integrations, workflow automation, and production-ready deployments across Community and Enterprise environments.

## Experience

### Python / Odoo Developer | Tti Testing Laboratories

May 2026 - Present | Full-time Hybrid

Leading Odoo development and ERP customization at Tti Testing Laboratories, focusing on scalable ERP solutions, workflow automation, and system integrations.

- Leading Odoo development and ERP customization at Tti Testing Laboratories
- Working on advanced Odoo customization, API integrations, POS & payment gateway solutions
- Optimizing PostgreSQL performance and Docker deployments
- Driving performance improvements using Python and Odoo technologies

### Team Lead | Aetos Technologies

Jan 2026 - Apr 2026 | Full-time Hybrid

Led Odoo development team and handled integrations across accounting, CRM, sales, inventory, and clinical workflows.

- Led Odoo development team of 3 engineers delivering ERP solutions across Accounting, CRM, Sales, and Inventory
- Built Sage Odoo integration that eliminated manual data entry (100% automation)
- Integrated the Doctor portal with the ClearPath Odoo ERP system
- Coordinated delivery across client requirements, support, and production releases

### Odoo Developer | Aetos Technologies

Jan 2025 - Dec 2025 | Full-time Lahore, Punjab, Pakistan

Delivered automation, integrations, migration work, and sales workflows across multiple client projects.

- Developed Mastercard payment module and automated 500+ transactions per month
- Created Sale Order automation that reduced follow-up time by 40%
- Integrated REST APIs (Ringfree, Firebase) for billing and automation
- Led Odoo 16 to 17 migration with zero data loss

### Python Developer | Axiom World

Aug 2023 - Jan 2025 | Full-time On-site

Developed custom Odoo modules, improved performance, and replaced manual workflows with API-driven processes.

- Developed 5+ custom Odoo modules (Sales, Inventory, Accounting)
- Improved system performance and reduced load time by 25%
- Integrated third-party APIs and removed manual CSV workflows
- Customized reports (QWeb) and dashboards for business insights

### Mobile Application Developer | Hazel Mobile

Aug 2022 - Nov 2022 | Internship

Worked on Android application development and UI patterns during internship.

- Built Android application features using Java and Kotlin
- Applied MVC and MVVM patterns in app development
- Collaborated on feature design, testing, and QA across releases

## Skills

**ERP / Odoo:** Odoo 16/17/18/19, ORM, QWeb, XML Views, OWL, Odoo.sh, JSON-RPC

**Backend:** Python, Flask, Django, REST API, PostgreSQL

**Integrations:** Mastercard, Sage API, Ringfree, Firebase, OAuth 2.0

**DevOps:** Docker, Git, Linux, Nginx

**Mobile:** Android, Java, Kotlin, React Native, Firebase

## Selected Projects

### ClearPath Orthodontics ERP | Internal Project | 2026

Clinical operations, logistics, biometric attendance, and manufacturing ERP

Integrated and extended an Odoo 18 Enterprise ERP for ClearPath Orthodontics, including a Doctor Portal for patient orders, prescriptions, and clinical workflows, along with shipping and logistics flows for order fulfillment and delivery.

- Built and customized a Doctor Portal to manage patient orders, prescriptions, and clinical workflows
- Implemented Manufacturing (BOM) and Production workflows to support medical product preparation and operations
- Customized the Shipping and logistics module to track order fulfillment and delivery processes

### Mastercard Payment Provider | Aetos Technology | 2025

Custom Odoo payment acquirer for 500+ monthly transactions

Built a custom Mastercard payment provider for Odoo 17 and Odoo 18 across Community and Enterprise environments, enabling automated invoice settlement directly inside Odoo Accounting.

- 500+ monthly automated transactions
- Seamless Odoo Accounting integration
- Custom payment flow with error handling

### Tazah Technologies Sale Order Flow | Aetos Technology | 2025

Custom module automating full sales lifecycle

Designed and implemented a custom Sale Order Flow module to automate and track the lifecycle of sales from quotation to delivery and payment. Reduced order follow-up time by ~40%.

- Quotation to delivery full lifecycle automation
- ~40% reduction in order follow-up time
- Custom reports for operations team

### Sage Integration | Axiom World | 2025

Flask-based Odoo sync engine for invoices and payments

Built a Flask-based connector to sync Sage invoices, customers, and companies with Odoo Accounting using a scheduled REST API pipeline. Automated partial payments and reconciliation with robust error handling.

- Automated invoice import from Sage into Odoo
- Partial payment and reconciliation handling
- Scheduled cron job for real-time sync

### RingFree Integration & Customization | Axiom World | 2024

Odoo metered service billing and external system integration

Developed a full integration between Odoo ERP and the RingFree external platform to automate usage-based metered billing and financial synchronization. The system ensured accurate usage calculation, automated invoice generation, and seamless bank payments reconciliation.

- Integrated RingFree external web services with Odoo using REST APIs for real-time synchronization
- Implemented metered billing system to calculate customer charges based on service usage data
- Developed automated invoice generation workflows for monthly billing cycles

## Education

### Lahore Garrison University

Bachelor of Science in Computer Science | Jul 2019 - Jul 2023

## Certifications

Docker Training Course for Absolute Beginners | KodeKloud | 2024
